

NORTH WALSHAM & DILHAM CANAL TRUST

In co-operation with the East Anglian Waterways Association Ltd

Subject: Additional work-party at Swafield staithe and turning area.
Date: Thursday 25th Feb 2016.
From: D. Williams, NW&DCT. (Deputising for C.J.B. Black)

THE PLAN:

- To assist Laurie and his cherry-picker operator with tree trimming beside the road bridge.
- To recover the useful timber for firewood and chip the brash.
- To cut good timber and stack on site.
- To clear all detritus and any odd branches falling on the road.

WORK ACHIEVEMENT: The weather to start was cold and sunny but warm later. 5 volunteers turned out today.

Lookouts were posted each side of the road over the bridge to help clear up detritus falling on the road and to look out for vehicles for safety.

All of the above plan was achieved without mishap.

Work ceased at 12.30 approx.

Laurie continued to clear some of the timber with the JCB and the JCB on the opposite bank was clearing and levelling the bank.

Dennis Williams.

Note from Chris Black:

All the work-party members have been issued with hi-vis jerkins and safety hard hats. They have been made fully aware of the safe working arrangements required during visits to this site.

Thanks to Dennis for taking charge of this work-party.
