

North Walsham and Dilham Canal Trust

WORK PARTY REPORT

Date: Sunday 12th September 2021

Objective: Brash clearing below Ebridge
West bank path cleared
Electrics check for 'Weasel' our workboat

Report: Alan Bertram, Trust work party leader

Sunday 12th September saw the work party volunteers return to Ebridge and mainly work on the area downstream of the bridge to clear access where there was an old pumping station. The change in the view from first to last can be seen.

As well as this, the DR mower made three round trips up the west bank to clear a surprisingly overgrown path, and work continued on electrics on Weasel.

Volunteer tabards are sponsored by 'The Recruiting Sergeant' P.H. Coltishall.
