

North Walsham and Dilham Canal Trust

Work Party Report

Date: Sunday 21st August 2022

Location: Ebridge

Objective/s: Remove damaged seat and erect fencing

Arrived at workshop to meet up with JC of the Old Canal Company. He had been informed about a dangerous seat at Ebridge.

MW, RJ and myself drove down to view the problem. The seat was in a bad way so we completely removed it and filled in the holes where the support legs were.

We then walked along the bank on the spillway side to check for damage by the animals getting out of the water. Between the spillway and the first bend in the canal there are ten lots of damage, four of them are substantial.

Returned to the workshop, repaired two mowers and then cut all the weeds and grass in the yard.

We had our lunch.

Under the instruction of the Old Canal Company, we carried a Heras fence panel up to the spillway at Royston bridge and erected it where the barrier is, with a sign on it saying that this is "PRIVATE PROPERTY" and beyond.

Finished work at 2.30pm.

**If you are interested in helping at any work party,
please contact us using the 'contact us' form available on our website
